LADY LUCK STRIKES TWICE FOR LOTTERY PLAYER

BISMARCK – When David Liuska (Loo-ESS-ka) of rural Wing, North Dakota, purchased another 2by2 multi-draw ticket, he just wanted to be sure he was included in every draw and now David is the lucky winner of TWO - \$22,000 2BY2 jackpots – that’s \$44,000!

Because David lives in the country and doesn’t get to a lottery retailer every day, he usually purchases multi-draw tickets. “That way I know that my numbers are in every draw,” he said. “I’ve been sticking with the same numbers since the game came out and once in a while I will do a quick pick along with it.”

His lucky moment came when he decided to get another multi-draw ticket, using the same set of numbers, just because he was in town running errands. The tickets, both with the same numbers, over-lapped for the October 3rd draw, which turned out to be David’s stroke of luck.

“I knew I was getting close to finishing the first ticket, so I stopped to buy another one. When I won, I had no idea I won \$44,000 – I thought it was \$22,000 – what a nice deal that was,” said David.

David’s career is in farming and the winnings will be put to good use paying off a few farming expenses.

The 2by2 winning jackpot tickets were purchased in two locations: Cenex located in Sterling, and Lander’s Conoco located in Bismarck.

Since the 2by2 game was introduced in February 2006, 103 jackpots have been awarded to North Dakota Lottery players. Congratulations to David!
